

**LINE**  
**THE GREENBUSH**

The Greenbush branch of the Old Colony Railroad snakes through the South Shore from Braintree to Scituate. Seven stations are planned on the line, which cuts across roads 44 times.

# THE TRAINS

World pull six double-decker coaches, some new and some borrowed from the Ts other commuter rail lines.

Length	Width	Height	Seats
Double-deck	85.4	10.0	156
Single-level	85.3	10.6	128
			122

DIESEL LOCOMOTIVE		65	10	16	Maximum 60
Speed	Length	Width	Height		

**TYPICAL STATION**

Length	Width	Height
800'	10'	16'

## Hingham Tunnel options

The MBTA is considering several types of tunnels under historic Hingham Square. They vary from the \$95 million, 3,600-foot covered trench shown here to a \$215 million, 2-mile underground south of the square. The state's transportation secretary wants trains to run at ground level instead.
